

Attachment B – Sewage Pump/Ejector Stations Checklist

1. Sewage Pump Stations
 - a. Sewage Pumping Units
 - b. Pump Control System
 - c. Alarm/Auto-Dialer Systems
 - d. Wet Well Compartment
 - e. Dry Well Compartment
 - f. Pump Intake/Discharge Piping
 - g. Valve Chamber
 - h. Pump Isolation/Check Valves
 - i. Sewer Force Main Piping
 - j. Air/Vacuum Release Structures
 - k. Emergency Storage Tank
 - l. Emergency Power Generator

2. Sewage Ejector Stations
 - a. Pneumatic Ejector Units
 - b. Ejector Control System
 - c. Air Compressors
 - d. Sewage Ejector Station Vault
 - e. Alarm/Auto-Dialer Systems
 - f. Ejector Intake/Discharge Piping
 - g. Ejector Isolation/Check Valves
 - h. Sewer Force Main Piping
 - i. Emergency Storage Tank
 - j. Emergency Power Generator
