

Interagency Committee on Chemical Management
Meeting Minutes: February 14, 2018
Montpelier Room, 1 National Life Drive, Montpelier, VT 05620
Facilitated by Peter Walke, ANR Deputy Secretary

1. Welcome

2. Review of Dec. 2017 and Jan. 2018 Meeting Minutes

Motion by Meyer to approve Dec. 2017 and Jan. 2018 minutes. Seconded by Dolan. The Committee members voted to approve the Dec. 2017 and Jan. 2018 minutes.

3. LEAN Event Report Out

Vose and the interagency technical team provided a summary of the LEAN event. The team identified the “good” and “great” future states: “good state” and the “great state”. The good state would include: (a) reporting guide for reporters and (b) consolidation of application reporting systems and integration of all chemical data in statewide/public view. The great state would include: (a) comprehensive chemical inventory/registry and (b) statutory changes to support comprehensive reporting. The team recommends that the State pursue action plan to achieve good state initially and consider great state once a centralized reporting system has been successfully implemented.

The presentation may be accessed via the Committee website:

<http://anr.vermont.gov/about/special-topics/chemical-management-committee>.

4. Next Steps

The interagency technical team will meet over the next several weeks to continue information gathering to identify specific actions and resources required to implement the changes necessary to implement a centralized reporting system, and will report back to the Committee on March 14.

Committee Members in attendance:

Boccuzzo, Linda for Giguere, Cary, *Agency of Agriculture, Food & Markets*

Dolan, Traci, *Department of Health*

Telep, Peter, *Agency of Digital Services*
